

# HELIPORT LIGHTS

## LXS PORTABLE LIGHTING SYSTEM LXS-RESCUE

**PATENTED**

During **emergencies**, helipads where night operations are authorized become a crucial infrastructure. To cope with this need, Luxsolar R&D team has developed a **portable lighting system**.

Such lights create a temporary helipad perimeter landing area, allowing helicopters to operate safely.

LXS-Rescue is a versatile product: it can be used in several situations and operated by non-technical personnel, such as police force, emergency and rescue teams, highways employers, service areas employers, etc.
